The March Is On...

CBSE Capacity Building Programme

Report on a One-Day Workshop on Disaster Management

Date: 19 September 2026

Venue: Vishwa Bharti Public School, Noida

A one-day workshop on 'Disaster Management' was successfully organised for teachers at Vishwa Bharti Public School, Noida, on 19 September 2026 under the CBSE Capacity Building Programme. The main objective of the workshop was to provide teachers with essential knowledge related to disaster management and to prepare them to respond safely, efficiently, and effectively during emergency situations.

The workshop was conducted by Dr. Pramendra Sharma and Mrs. Nidhi Saxena. Both resource persons presented the topic in a simple, engaging, and practical manner. During the workshop, important aspects such as pre-disaster preparedness, identification of potential risks, safety precautions, and appropriate decision-making during emergency situations were discussed in detail.

To make the workshop more effective and participatory, various activities were organised. The teachers enthusiastically participated in question-and-answer sessions, group discussions, poster-making activities, and other engaging tasks. These activities provided the teachers with an opportunity to understand the concepts of disaster management in a practical manner and to reflect upon their roles and responsibilities in different emergency situations.

During the question-and-answer sessions and discussions, the teachers shared their experiences and deliberated on various issues related to emergency situations. This helped connect the workshop content with real-life situations in the school environment and further strengthened the teachers' alertness, patience, quick decision-making skills, and sense of responsibility during times of disaster.

Overall, the workshop was an informative, practical, and enriching experience for the teachers. It not only enhanced their awareness of disaster management but also made a significant contribution towards creating a safe and disaster-prepared school environment.

On behalf of the school, heartfelt gratitude and thanks were expressed to CBSE and both the resource persons, Dr. Pramendra Sharma and Mrs. Nidhi Saxena, for the successful organisation of the workshop and their valuable guidance.
